How do I install the downloadable phone application?

- Native downloadable phone applications can be downloaded directly from iTunes® or Google Play® on your device.
- Alternatively, you can enter the following URL link (<https://mBanking.firstdata.com/wap/home/sbtcgmn/en>) in your device browser to connect to the mobile browser application.
- Next, access the global navigation menu and look for a **Download** link. Click this link to download the application. If this link is not visible, a downloadable application is not available for your device.

- Text Banking "L" command
